

TOWN OF WINFIELD

Building Permit Application

The Town of Winfield requires two (2) permits for building construction. A Zoning permit must be administered first and then a building permit is issued. A STOP WORK ORDER WILL BE ISSUED IF BUILDING IS STARTED WITHOUT A PROPERLY ISSUED AND DISPLAYED BUILDING AND ZONING PERMIT.

In order to insure the processing of your Building Permit Application as quickly as possible, please read this completely. Any omissions in your application will only delay the issuance of a permit.

An application for a Building Permit, that has been completed properly and submitted with the required documents, should be processed and granted within 7-10 working days. Applications will be reviewed in the order they are received.

It is your complete responsibility to request any and all inspections. This office is here to help you in any way it can. If you and/or your builder conscientiously and in good faith adhere to the Building Code and Local Zoning Ordinance, there should be no problem with your project. Violations of the Building code and Local Zoning Ordinance will only entail delays and usually additional financial costs, as well as appearance in Town Court.

On your permit, the inspections required are checked. Call before pouring concrete, or covering gypsum board, etc. All electrical inspections are by an outside agency. No Certificate of Occupancy (CO) will be issued without an Electrical Completion Certificate, supplied by a New York State approved agency. Occupancy of your building without a Certificate of Occupancy is illegal under the code. If occupancy occurs for any reason before the Certificate of Occupancy, a summons will be issued for appearance in Town Court.

Do not hesitate to contact me to discuss your project. My home phone for your convenience is 822-5351 (with an answering machine).

PLEASE TAKE NOTE

Upon receiving the building permit you are requested to notify the codes officer of a number of inspections that must be done. It is the responsibility of the permit holder (or his contractor whomever your designate) to contact the codes officer when the inspections may be done.

Keep in mind that inspections are on Monday through Thursday. Friday is used for paper work and or State learning programs. At least a 24 hour notice must be given. A "Stop Work Order" may be issued at any time if the inspection schedule is not followed or if the project is not in code compliance.

The inspections are:

Footing before pouring concrete	Foundation before backfill
Framing before enclosing	Electrical before enclosing
Plumbing before enclosing	Heating, air conditioning Before enclosing
Insulation before enclosing	Final inspection

When any additional inspections are required this will be on the permit issued (i.e. septic system or swimming pool).

Phone number for codes and zoning officer Mike Connors 315-404-9055

- a. () Electric () Oil () Gas () Wood
 b. Type: () Forced Air
 () Baseboard
 () Heat Pump
 () Other, explain _____

The fee that must accompany this permit application and the provisions in the education law requiring drawings to bear the seal of a NYS registered architect or licensed Professional Engineer are both based on the proposed building size expressed in square feet. To determine square footage, use outside building dimensions and include the areas of habitable basements and all above grade floor levels except non-habitable attics. Do not include area of attached or detached garages or carports.

Town of Winfield Fee Schedule
